OVERVIEW

The Avocor A Series is designed to transform educational spaces into interactive and engaging environments, supporting both in-person and distance learning. With its EDLA certification, the A Series seamlessly integrates into educational ecosystems, enabling schools and universities to enhance student engagement and streamline remote instruction.

These displays are built for flexibility, with powerful 4K resolution, superior touch technology, and robust connectivity to meet the evolving needs of modern classrooms.

The A Series is equipped with a detachable 4K camera and advanced microphone array, ensuring remote students experience the same level of interaction as those physically present. This solution empowers educators to deliver immersive lessons that bridge the classroom and remote environments, fostering a more inclusive learning experience.

The A Series is the ultimate tool for modernizing education and creating impactful learning experiences for all students, no matter where they are.
